

## Get Ready to Lead!

For 25 years, we at Magic Software University have been supporting our customers and partners in every business arena with professional training tools and educational support.

At the heart of our business, we are committed to ensuring that our customers and partners **successfully acquire the skills** they need to deliver maximum productivity and better business results.

With a solid grounding in Magic Software's products, developers and IT professionals have at their fingertips one of the most powerful and practical software tools for developing, deploying and integrating IT business applications. By learning to master Magic Software's business technology, developers and IT professionals can **gain a measurable head-start** in delivering state-of-the-art software solutions quickly, while using fewer resources.

*“ We found the course handbooks and accompanying CD to be excellent, all of which Complimented the “hands-on” expertise in the subject matter delivered by the Magic Software instructor himself. All in all, the team agreed the quality of the training was excellent and very worthwhile. ”*

**Geoff Griffiths,**  
Customer Services Director at Safe Computing

## Why Choose Magic Software's Training Courses?

Magic Software University is dedicated to providing courses and training materials to enable Magic Software developers **to succeed in every real-life implementation scenario.**

Our team of expert instructors is selected from the core of Magic Software's field-based staff, and includes specialists from both our customer support centers and professional services.

Magic Software University is based worldwide, serving thousands of companies in every industry vertical.
