

SUCCESS STORY

Pacific Steel & Recycling Leverages Magic xpi Integration Platform for JD Edwards Connectivity

The Customer

Metals & Recycling

Industry: Industrial Goods

Region: North America

Objectives

- Integrate to SigmaNest, a leading CAM solution
- Automate Sales Quote process between SigmaNest and Oracle JD Edwards

The Project

Magic Solution: Magic xpi Integration Platform, JD Edwards EnterpriseOne Adapter

- Demonstrate capabilities for Quote, Quoteltem and QuoteAddress integration
- Synch Quotes from SigmaNest to JD Edwards
- Synch Work Orders from JD Edwards to SigmaNest
- Synch On-hand Items from JDE to SigmaNest

Results

- Successful integration of SigmaNest and JD Edwards
- Multiple successful integration flows that streamline business operations and eliminate process gaps
- Excellent collaboration and mentoring by Magic of the Pacific Steel & Recycling IT Team

OUTPERFORM THE FUTURE™

Magic xpi Integration Platform is known for its excellent JD Edwards Adapter but what impressed me was its ability to automate discovery and handling of APIs that are completely unknown to it. This is a great tool for API integration to 3rd party software.”

Kenneth Hess, CIO, Pacific Steel & Recycling
